this section in accordance with Section 5 of appendix G to this part.

[Doc. No. 28870, 62 FR 17487, Apr. 9, 1997]

§91.707 Flights between Mexico or Canada and the United States.

Unless otherwise authorized by ATC, no person may operate a civil aircraft between Mexico or Canada and the United States without filing an IFR or VFR flight plan, as appropriate.

§91.709 Operations to Cuba.

No person may operate a civil aircraft from the United States to Cuba unless—

- (a) Departure is from an international airport of entry designated in §6.13 of the Air Commerce Regulations of the Bureau of Customs (19 CFR 6.13); and
- (b) In the case of departure from any of the 48 contiguous States or the District of Columbia, the pilot in command of the aircraft has filed—
- (1) A DVFR or IFR flight plan as prescribed in §99.11 or §99.13 of this chapter; and
- (2) A written statement, within 1 hour before departure, with the Office of Immigration and Naturalization Service at the airport of departure, containing—
- (i) All information in the flight plan;(ii) The name of each occupant of the aircraft;
- (iii) The number of occupants of the aircraft; and
- (iv) A description of the cargo, if any. This section does not apply to the operation of aircraft by a scheduled air carrier over routes authorized in operations specifications issued by the Administrator.

(Approved by the Office of Management and Budget under control number 2120–0005)

§91.711 Special rules for foreign civil aircraft.

- (a) General. In addition to the other applicable regulations of this part, each person operating a foreign civil aircraft within the United States shall comply with this section.
- (b) VFR. No person may conduct VFR operations which require two-way radio communications under this part unless at least one crewmember of that

aircraft is able to conduct two-way radio communications in the English language and is on duty during that operation.

- (c) *IFR*. No person may operate a foreign civil aircraft under IFR unless—
- (1) That aircraft is equipped with—
- (i) Radio equipment allowing twoway radio communication with ATC when it is operated in controlled airspace; and
- (ii) Radio navigational equipment appropriate to the navigational facilities to be used;
- (2) Each person piloting the aircraft—
- (i) Holds a current United States instrument rating or is authorized by his foreign airman certificate to pilot under IFR; and
- (ii) Is thoroughly familiar with the United States en route, holding, and letdown procedures; and
- (3) At least one crewmember of that aircraft is able to conduct two-way radiotelephone communications in the English language and that crewmember is on duty while the aircraft is approaching, operating within, or leaving the United States.
- (d) Over water. Each person operating a foreign civil aircraft over water off the shores of the United States shall give flight notification or file a flight plan in accordance with the Supplementary Procedures for the ICAO region concerned.
- (e) Flight at and above FL 240. If VOR navigational equipment is required under paragraph (c)(1)(ii) of this section, no person may operate a foreign civil aircraft within the 50 States and the District of Columbia at or above FL 240, unless the aircraft is equipped with distance measuring equipment (DME) capable of receiving and indicating distance information from the VORTAC facilities to be used. When DME required by this paragraph fails at and above FL 240, the pilot in command of the aircraft shall notify ATC immediately and may then continue operations at and above FL 240 to the next airport of intended landing at which repairs or replacement of the equipment can be made. However, paragraph (e) of this section does not apply to foreign civil aircraft that are not equipped with DME when operated for
